Brief Overview of Microsoft Office 2019 for Mac OS X Microsoft Office 2019 for Mac is a very handy office suite that is being in use for so many years and it also the most widely used office suite all.. Note: macOS also has a feature called 'Compress' which is a different thing entirely.. If you want to try HFS+ compression from the command line – check out We found a nifty and cheap tool to use HFS+ compression, but it's disappeared.. Outlook for Mac is a disk space hog but the macOS has a way to recover some of that.. Data is stored in Documents/Microsoft User Data then in 'Identities' What's taking up Mac disk space? We used to look at the entire drive and see which folders took up the most space.. The compression doesn't save as much disk space as it once did because many file formats are now already compressed (e..
