The current version of 0 7 6 is much more complete with many more calls and additions but this build has a much more working Multiplayer, the Fire Academy additions, and more.

Also supports basic VR input, with advanced support soon to follow, so you can actually feel like the worthless speck or overcompensating tryhard that you are! **DOWNLOAD THE GAME FOR FREE HERE:** Toss a few shekels this goy's way if you're feeling generous: Sizebox discord: Leave feedback here: Tutorials and basics here: plug-in: unity3d.. This sandbox-like game is being developed by Aiiko, whom you can support below The game allows you to spawn giant npcs, tiny npcs and even objects such as cities, vehicles, and even other stages, all of which you can manipulate to make many different size related scenarios.. You can also import your own giants and watch them wreak havoc on your custom-made cities, or assume control and do the wreaking yourself! It's like Garry's Mod for macrophiles.. You can create scenes with your favorite macro fantasies and take screenshots of them for your fap folder.. Emergency game free download I want you guys to be able to play this latest version while me and Donut try to trace down this Unity issue.

Sizebox Discord Subreddit Wiki Macrochan Download Welcome to the Sizebox subreddit! Make sure you follow the rules: Please be civil! This is a catch all rule, please try and avoid causing trouble or fights among the community.. 7 6 for you guys. S C We have not been served any secret court orders and are not under any gag orders.. **WHAT IS SIZEBOX?** Macrofags rejoice! A game is being tailored exclusively to your fetish! Sizebox is an open-world sandbox game about playing around with giants.

You can play a game of Cat & Mouse: play as a micro running away from the macro, or play as the macro trying to catch the micro, perfect if you prefer foreplay before indulging in your foot/crush/vore fetish.

If it's a gts file, drag it to the Giantess folder, same goes for the other types as well.. Here's a game that from what I can tell has been in the works for a while, and I'm pretty excited for it.. To file a DMCA takedown notice, please email In the interest of transparency, notices of claimed infringement will be posted on.. You can import mmd models to act as giants or even micros to be both playable characters and npcs you can choose to squish! If you'd like to show continuous support to the game, here's a link to Aiiko's Patreon page: Here is a link to the game, both early versions and updated versions are included in the link: --Update-- Here's a link to where you can get models and objects for the game all you have to do is download them and drag them into the folder corresponding to their file type.. I have published 0 7 6 to the staging branch ( An early WIP version that the @5th Battalion MP have had access to from last month) Basically the last working build we were able to make before Unity screwed us and we keep getting build errors.. This is not an official release, there are issues and bugs like always, but just know we are continuing to try to find the issue so I can publish a much more stable and complete update 0..
